CAREER OBJECTIVE

Creative **Web Designer** skilled in WordPress and frontend development, seeking to build visually appealing, user-friendly, and responsive websites that align with business goals and deliver great user experiences.

PROFESSIONAL EXPERIENCE

FODUU - Web Design Company India, *Web Designer & Frontend Developer*

11/2024 – Present | indore,india

Description :

- Designing and developing responsive and multilingual websites using WordPress and Elementor for international clients.
- Worked on Arabic, French, and German websites with proper localization, including RTL layout for Arabic.
- Creating interactive, user-friendly frontend interfaces using HTML5, CSS3, Bootstrap, JavaScript (ES6+), and React.js.
- Customizing WordPress sites with a focus on clean UI, SEO optimization, and mobile responsiveness.
- Collaborating on MERN stack projects as a frontend developer, working on API-based UI components and enhancing user experience.

YPSILON IT SOLUTION PVT. LTD, *Mern Stack Developer intern*

09/2023 – 03/2024 | indore,india

Description :

Api Development: I created and managed APIs (Application Programming Interfaces) using Node.js and Express.js. These APIs allowed the front-end of the application to communicate with the back-end and perform tasks like user login and fetching data.

Database Management : I worked with MongoDB to store and manage data for the application. I set up a structure for how the data would be stored and made sure it was easy to add, update, or delete information as needed.

Work With React Js: I used React.js to build user interfaces, which helped me understand the core concepts of the Js library.

EDUCATION

Sage university Indore, *Master of Computer Application (MCA)*

2022 – 2024

CGPA of 7.28

Maharani Laxhmi Bai Girls PG College, *Bachelor of Computer Science (Bsc.cs)*
